

# INTRODUCING THE NEW BLIZZARD DC EXHAUST FAN

Brilliant is proud to introduce the first in our bathroom range, brushless Direct Current (DC) motor exhaust fan to meet the growing demand for home energy star rating. Not only does it offer a powerful ventilation performance, but also an aesthetic design that appeals to all decor.

Blizzard has been tested to perform under long ducting, and the resulting chart shows that the airflow (with 10m ducting) still remain reasonably well at around 50% of peak extraction.

\*Testing is done based on 150mm duct diameter.

\*\*Recommended to avoid sharp bends/turns, as it will reduce the airflow significantly.

DC EXHAUST FAN

22771/05 & 22773/05

IDEAL FOR  
SMALL-  
MEDIUM  
ROOMS

22772/05 & 22774/05

IDEAL FOR  
MEDIUM-  
LARGE  
ROOMS

## The most energy efficient DC Exhaust Fan in its class!

- Our DC motor consumes up to 50% less power than most traditional AC motors and still achieves the same airflow extraction.
- Due to the lower operating temperature, it will outlast most AC counterparts in its lifespan. This means this may be the last exhaust fan you ever buy.
- Our duct adaptor can be easily removed to enable easy ducting installation. Each adaptor includes a backdraft stopper to prevent drafts from entering your home.
